Meeting Minutes – Prepared by William Wadsworth

Date: 4/17/2024

Time: 2:00 PM – 3:10 PM

Location: Cyber Security Lab

Attendees:

- Anthony
- Corey
- Dylan
- Parker
- Will
- Zach

Meeting Contents (4):

1. Everyone updated on their task progress
2. Made notes of what is done, what is in progress, and what we did not have time for.
   a. Complete
      i. Active aggregation (flight takeoff and layovers)
      ii. Reports generated
      iii. GUI for frontend and backend
   b. Partway complete
      i. Delays module (partial implementation, not tested)
   c. Not done
      i. Localization for time and language
3. Discovered major bug with passenger demand usage
   a. Daily demand, which should be a constant number, was being decremented instead of current demand, affecting future flights
4. Compared simulation output for active and no aggregation
