Meeting Minutes – Prepared by William Wadsworth

Date: 4/8/2024

Time: 1:58 PM – 2:45 PM

Location: High Performance Computing Lab

Attendees:

- Anthony
- Corey
- Dylan
- Parker
- Will
- Zach

Meeting Contents (6):

1. IMPORTANT: the presentation is 30 TOTAL minutes:
   a. 20 minutes for the actual presentation
   b. 5 minutes to discuss what we learned
   c. 5 minutes for questions
   d. Stay after the first few presentations to adjust accordingly.
2. Corey updated the group on the progress of the customer GUI.
3. Discussed possible inclusion of advertisements (or something else) to fill blank spaces on customer GUI.
4. Each member updated the group on the progression of their tasks.
5. Everyone should aim to get things done by Wednesday, 4/17 so that final checks can be done Thursday 4/18.
6. User manual:
   a. How to download, configure, and execute.
   b. Imagine this was given to a 5th grader.
   c. Include details on how to add a plane or airport (just add requirements to the CSV).
   d. Include extra detail for buried features, if any.
   e. Give expected output as if it worked for non-obvious stuff.
   f. Include how to test if the end user adds or edits anything (asserts in scripts should handle, but go into more detail).
